

CONVEYOR & TRANSMISSION LTD

SPECIALISTS IN CONVEYOR AND TRANSMISSION PRODUCTS

PTFE COATED FABRICS

PRESSURE SENSITIVE ADHESIVE SHEET AND TAPES.

Stock range available with a pressure sensitive high temperature (+ 260 Degree C) silicone adhesive coating one side.

Tapes available in 15 meter rolls with liner & 30 meter self wound, standard widths or slit widths.

Sheet 1000mm—1200mm wide.

3 Thou (0.12mm) 5 Thou (0.18mm) 10 Thou (0.28mm) Thickness.

Extended range includes special coatings, high temperature, premium grades, acrylic adhesive backing and plain non adhesive.

These products provide an excellent heat resistant release surface for a diversity of individual environments, in applications such as packaging machinery, chute liners and pressing equipment.

- * Heat sealer Tapes
- * Zone Tapes
- * Silicone rubber coated film tape
- * Skived PTFE film tape
- * Glass fabric tape

PTFE (Teflon) AND SILICONE COATED FABRICS.

C&T Manufactures a wide range of PTFE Coated fabric and silicone rubber fabric belts of composite construction to suit a wide variety of industrial applications, up to 4500mm wide complete with a variety of edge reinforcement, tracking guides and splice constructions.

PTFE—polytetrafluoroethylene (Teflon) and silicone rubber are truly unique products. No other materials can match their properties. When applied to a fabric substrate the resulting composite fabric provides the following general properties.

- * Outstanding temperature resistance.
- * -150 to +260 Degrees C (PTFE Glass) -70 to +230 Degrees C (Silicone Glass)
- * Excellent chemical resistance
- * Non stick low friction surface PTFE Glass
- * Non stick high friction surface Silicone Glass
- * High Dielectric strength
- * Dimensional stability under pressure
- * Outstanding resistance to flame.

Our standard belts are used in many industrial applications such as the following.

- | | |
|------------------------|---------------------|
| *Textile drying | * Screen printing |
| *Fabric fusing | * Shrink Wrapping |
| *Rubber curing | * Tobacco filter |
| *Package over wrapping | * Timber laminating |
| *Dewatering | * Vacuum mesh |
| *Food processing | |
